

2023 Hope REPORT

As much as this is a financial report, it is also a token of celebration and gratitude. We couldn't do any of this without you.

When you look at this report, our prayer is that you get a small glimpse at your part in bringing lasting hope to the most vulnerable in San Diego. Each year, we award grants to our affiliate organizations to support the work they're doing in our communities.

Behind these numbers are stories waiting to happen: stories of transformation and redemption. God is renewing our city and invites us to be a part of that work.

Thank you

million \$1,500,000

We volunteered at the SD Rescue Mission on the Day of Service. It was sobering to observe the hardship that so many have to endure, and uplifting to know that there are such caring and resourceful ministries to lend a hand. We're thankful that HFSD organizes such needed exposures for people like us."
